## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 14-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 20-26 are allowed for the reasons previously indicated, specifically in the non-final rejection mailed on 5/13/2003.

Claims 14-19 are allowed for the reasons given by the applicant in applicant's amendment received on 7/8/2004. Specifically applicant emphasis that the method is for detecting periodic wave patterns, and on page 5 emphasizes that the detection of periodic wave patterns is not simply intended use language. As stated by the applicant the Yamatake reference as translated by the office does not meet this limitation in that although its method takes into account periodic wave patterns, its methods is not designed to specifically detect and analyze them as the claimed method of claim 14 does. Specifically the Yamatake reference seeks to eliminate the periodic pattern from the detected surface irregularities in order to detect non-periodic irregularities. Accordingly since Yamatake teaches a method of detecting non-periodic patterns instead of the periodic patterns, claims 14-19 are allowed.

All claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
